FRESH DROPS

**NEW · FLAGSHIP**

Replays — replay your mistakes.

"You've lost ~116 rating points to missed tactics across 16 games."

We surface your worst leak, then drop you straight into the positions you blew.

- Two replay modes — Stockfish at full strength, or a bot that plays your opponent's moves.
- Opening-trap detector — 11 named traps (Wayward Queen, Fried Liver, England, Halloween...).
- Per-pattern impact ranking with Getting-worse / Improving trend arrows.

Patterns, ranked

Each weakness now shows an impact bar and a trend arrow. Tap any pattern to drill into the fix plan.
